As the Largest Manufacturer in the Western United States.

A manufacturing supplier of hardware and accessories to the case and cabinet industries.

Our ever expanding product line and progressive tooling techniques benefit: Manufacturers of speaker enclosures, guitar cases, amplifier racks, wooden containers-Custom designing hardware, aluminum extrusions and associated products.

At Reliable made in the USA is not just a marketing ploy, but a workmanship guarantee because we’ve designed it, tooled it, stamped or formed it out of the highest quality materials and finished it combining the craftsmanship and care of a by-gone-era with a state of art manufacturing processes.

Join the Leader... Join Reliable
Chassis and Custom Metal Fabrication

From a single mounting hole punched into a standard corner or clamp, a special bend in a bracket, to uniquely designed progressive tool for larger volume requirements, we have the solutions to your needs. We can offer you a complete chassis from prototype to production; all we need is your conceptual design or print.

We offer the knowledge, ability and desire to make your efforts successful. We understand the needs of our industry and respect your obligation to produce the highest quality products possible at the most reasonable cost. MADE IN THE USA...says it all.
Custom Speaker Grills

We offer the widest range of materials and finishes in the industry to provide you with the exact performance required by your design. Your designs are produced using the highest grade carbon steel or aluminum alloys and completed to your exact specifications with powder coatings in any imaginable color and texture to chrome, zinc or a variety of oxide finishes.

Perforations can be round (standards from 5/64” to 1-1/2” dia. with open areas up to 68.7%), square (standards from 1/8” to 4” sq. with open areas up to 73.5%), expanded metals either standard or flattened (standards from 1/4” to 1-1/2” with open areas up to 90%), along with oblong or rectangular perforations and, of course, any custom shape or pattern your design dictates. Your designs can be limitless; boarders with mounting hole patterns, flanges, roll-formed curved surfaces with or without flanges just to name a few.

Again as always, MADE IN THE USA means quality, dependability and satisfaction for you and your end user.
Join the Leader ... Join Reliable

Established as a stocking supplier of the Hardware and Accessories to the ATA Case industry, Reliable Hardware Company has expanded its product line to benefit the manufacturers of Speaker Enclosures, Guitar Case, Amplifier Racks, Wooden Containers, Military Contractors, Trunk and Footlockers, as well as offering Custom-Designed Hardware, Aluminum Extrusions and associated Product Support Services to all Industries.
